Education

- **Rochester Institute of Technology** — Dubai, UAE
  Bachelor of Science in Cybersecurity — *2025*

Experience

- **e& (Etisalat and Group)** — Dubai, UAE
  Contact Center Solution Intern — *July 2024 – December 2024*
  - **Spring Development:** Developed backend features and API integrations using Java and Spring Boot.
  - **Agile Collaboration:** Contributed to code reviews, debugging, and documentation.
  - **Optimization:** Implemented performance improvements and automated testing scripts.

- **Rochester Institute of Technology** — Dubai, UAE
  Student Researcher — *June 2023 – November 2023*
  - **Mobile Security ML:** Developed Android RATs and trained ML models to detect anomalous microphone and camera activity.

- **Rochester Institute of Technology** — Dubai, UAE
  CPTC Penetration Tester — *2024*
  - **Competition:** Performed web and network penetration testing; helped team secure 2nd place regionally.

- **Malcrov** — Dubai, UAE
  Network Security Intern — *March 2022 – September 2022*
  - **Security Tools:** Used Burp Suite, Snort, Suricata, and OSSEC for web testing, intrusion detection, and log analysis.

Projects

- **OnClickTicket** — ASP.NET Web Application
  Cinema ticket booking platform
  - Implemented authentication and role-based access control.
  - Designed database using Entity Framework with search and filtering.
  - Integrated Bootstrap UI themes and URL routing with full CRUD.

- **Secure Company Environment** — Active Directory + Wazuh IDS
  Windows Server Security Project
  - Built secure domain using Active Directory and Group Policy.
  - Integrated Wazuh IDS for real-time monitoring and alerting.

- **Rust Command and Control Framework** — Cybersecurity Tool
  Multi-client C2 system
  - Designed asynchronous TCP-based C2 system using `Tokio` and `rustls`.
  - Implemented runtime certificate management and modular command handling.

Technical Skills

- **Programming Languages:** Java, C/C++, Rust, Python, Shell Scripting, x86 Assembly
- **Frameworks & Tools:** Spring Boot, ASP.NET, Docker, Git, MySQL, SQLite, Nginx, VirtualBox, VMWare
- **Markup & Documentation:** HTML, Markdown, LaTeX
- **Security Tools:** Nmap, Metasploit, Gobuster, Bloodhound, CrackMapExec, Impacket, Burp Suite, Wireshark, Ghidra, IDA, dnSpy, Wazuh IDS
